Hermeneutical Principles to Guide Eschatology

1. Start with what is most clearly taught and agreed on in Scripture.
2. Respect progressive nature of Biblical revelation
 - a. Prioritize latest revelation
 - b. Understand how it builds on preceding revelation
3. Respect the historical context and literary devices of revelation
 - a. History: original author, audience, purpose, and original language
 - b. Literary devices: symbol, metaphor, imagery, apocalyptic language
4. Respect brothers and sisters who disagree with your interpretation
5. Don't let it overshadow the gospel.
6. Don't ever neglect the Second Coming.
